

## CANDIDATE BIOGRAPHY OF **LLOYD HOTCHKISS**

**B.B.A**

I'm excited to stand for re-election to the YNCU Board of Directors. I've proudly served for eight years on the YNCU Board and six years on the Community First Credit Union Board prior to the 2016 merger.

During my tenure as a YNCU Board member, I served on several committees including Governance, Nominating and past Chair of the Pension Committee. In addition to this work, I am a former member of the Board for the Credit Counseling Service of SSM and District.

I hold a Mechanical Engineering Technology Diploma and a Bachelor of Business Administration degree. Currently serving as Corporate Operations Manager at McDougall Energy, I oversee operations across various Ontario communities, including several served by YNCU. My expertise spans sales, operations planning, budgeting, cost analysis, and product costing, along with extensive experience in long-range business planning, inventory control, logistics, and sales/marketing. With over 30 years of progressive experience, I am able to offer a knowledgeable, unique perspective on business.

With your vote, I hope to continue working with the Board to enhance our members' experience through investment in our delivery channels, the communities in which we serve and our extremely dedicated and talented staff. As a cohesive Board, focusing on our guiding principles, we will continue to make sound decisions that are in the best interest of the Credit Union, our staff and most importantly our members, for the long-term financial sustainability of YNCU.

**- Lloyd Hotchkiss**
