

CANDIDATE BIOGRAPHY OF **LLOYD HOTCHKISS**

Level A CUDA

I've proudly served for nine years on the YNCU Board and six years on the Community First Credit Union Board before the 2016 merger.

During my tenure as a YNCU Board member, I served on several committees including Governance, Nominating and past Chair of the Pension Committee. In addition to this work, I am a former member of the Board for the Credit Counseling Service of SSM and District.

I hold a Mechanical Engineering Technology Diploma and a Bachelor of Business Administration degree from Laurentian University (Algoma Campus), receiving the Carl J. Sanders award for highest grade point average.

Currently serving as Vice President of Operations at McDougall Energy, I oversee operations across various Ontario communities, including those served by YNCU. My expertise spans sales, operations planning, budgeting, cost analysis, and product costing, along with extensive experience in long-range business planning, inventory control, logistics, and sales/marketing. With over 30 years of progressive experience, I am able to offer a knowledgeable, unique perspective on business.

I hope to continue working with the Board to enhance our member experience through investment in our delivery channels, invest in the communities in which we serve and invest in our extremely dedicated and talented staff. As a cohesive Board, focusing on our guiding principles, we will continue to make sound decisions that are in the best interest of the Credit Union, our staff and most importantly our members for the long-term financial sustainability of YNCU.

- Lloyd Hotchkiss
