

CANDIDATE BIOGRAPHY OF

EILEEN FOROGLOU

CPA, CMA

As a Chartered Professional Accountant (CPA), I bring over 20 years of experience in financial leadership, governance, risk oversight, and strategic planning. My career spans finance, marketing, human resources, IT, and administration, giving me a comprehensive understanding of organizational operations and the ability to make informed, strategic decisions. I also spent seven years in asset management and investment, developing strategic plans, conducting due diligence, and recommending real estate opportunities—strengthening my business acumen and risk management expertise.

As Chief Financial Officer, I lead all corporate services and play a key role in strategic planning and execution. I established a Business Innovation Committee to drive technology adoption and process optimization. I am passionate about leveraging emerging technologies—such as AI and data analytics—to enhance member experience, improve competitiveness, and strengthen organizational agility.

I will apply my expertise to ensure sound governance, robust risk management, and forward-thinking strategies that position YNCU for sustainable growth. I bring proven expertise across all key competencies YNCU seeks—risk oversight, digital intelligence, AI, data analytics, business and financial acumen, and compensation. Combined with my CPA designation and innovative leadership, I will help advance YNCU's vision by embracing technology, safeguarding financial integrity, and fostering a culture of accountability and innovation.
